INDUSTRIAL AI CHALLENGE

Certificate of attendance

We hereby attest that

Marco Di Francesco

was selected and participated as Solver in the **2021 edition** of the **Industrial AI Challenge** organised by Hub Innovazione Trentino, and held from **24 September 2021** to **10 December 2021.**

Specifically, the student worked with other solvers, for 11 weeks, and an estimated amount of 60 hours, to address one data science challenge using advanced statistical analysis, machine learning and other artificial intelligence techniques, with the aim of creating predictive models based on data provided by the selected companies.

The organiser of the Industrial AI Challenge,
